JAN 08 2009  
RIVERSIDE COUNTY  
TRANSPORTATION COMMISSION

**Frank A. Lucardie**  
720 Heartland Point Ave.  
North Las Vegas, NV 89032

January 04, 2009

To Ms. Cathy Bechtel, RCTC  
PO Box 12008  
Riverside, CA 92502-2208

**Subject: MCPkwy Draft Environmental Studies Extended Deadline for comments,  
My Parcel, APN 281-110-011, situated in the center of the Mid County Parkway  
alignment, South of Cajalco Rd, West of Lake Matthews and East of Temescal Canyon .**

Dear Ms. Cathy Bechtel;

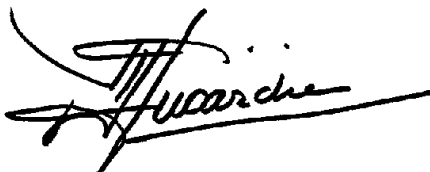

Thank you for having sent me information from time to time of the progress of the Environmental Impact Studies and your invitation of comments.

As a small stakeholder I am of course very much interested in what is going to happen with my parcel and in what way I will be able to develop it, if at all.

However, I do not have any comments on the Draft EIR/EIS as such, other than a request to the Commission, that after all the surveys of the alignment of the Mid County Parkway have been completed and the EIR/EIS have been approved, stakeholders will be given an accurate location plan of their properties which will give them the opportunity to assess how they could develop their parcels and, of course, fully benefit from the development. And understandably, I believe that the construction of the Mid-County Parkway will have a tremendous impact on my parcel.

As you and the Commission have informed me on the extension until January 8, 2009, I am looking forward to receiving further information on the development of the Mid-County Parkway after this date.

Sincerely,

Frank A. Lucardie
