Re: DEIR for the Mid County Parkway

9 Jan 2009

If possible we would appreciate you making note of the following typographical error that was not spotted in our original letter submitted by hand yesterday. The danger of using speech recognition software is the incorporation of correctly spelled but wrong wording!

Thanks,
Len Nunney, Secretary
Friends of Riverside's Hills

ERRATUM

Friends of Riverside's Hills letter re DEIR for the Mid County Parkway

Sentence beginning on line 4 of p4 of original document (8 Jan 09) should read:

"Failure to do this makes any meaningful analysis of the crossings impossible"

(Correction of computer dictation typo "and possible" in submitted version).
