Subject: Mid County Parkway

Dear Cathy,

The purpose of this letter is to voice my approval of the most Southern route for the proposed Parkway.

I live nearby and have brokered local real estate over the past 36 years. Because of my business, I must inform you I hold no financial interest in the area of the proposed Parkway and voice my approval for other reasons.

The existing Cajalco Road is overburdened during workday mornings and evenings. Any movement of emergency vehicles during those periods would be near impossible. The inordinate heavy traffic increases cost of maintenance.

The Southern route would greatly ease traffic congestion on Cajalco Road. It would also provide a much shorter response time of any emergency vehicle for properties close by the new Parkway and Cajalco Road area.

Sincerely,

Richard B. Robinson
