**Subject:** Official Comments for the DEIR for the World Logistics Center

**Attachment(s):** 0

Dear Mr. Gross:

I am opposed to the World Logistics Center because of the tremendous negative will have on Moreno Valley and the surrounding area. The WLC will destroy air c will lead to severe health issues for many residents, especially children and sen The numerous trucks will emit Diesel particulates with cancer-causing carcinog trucks will also add an incredible amount of noise pollution, cause traffic conge damage road systems. With huge warehouses and hundreds of Diesel trucks rui the Moreno Valley community will have an industrial feel and become a far less place for people to live and rear families. Moreno Valley stands to lose too muc! WLC!

Could you please send a confirmation of receipt of this email. Thank you very n help!

Respectfully submitted,  
Faith Wong
