Zip: 92570
Parcel:

Comments:

When I was in grade school, we had a balding President names Eisenhower. He announced an interstate highway system from border to border. By the time I reached college, it was almost complete, and finished by the time I finished college.

P-20-1

I moved to my current address in the late seventies, and was told at that time that Caljco was to be a freeway. Here it is 2013 and multiple studies starts and stops, how many deaths and accidents later you are STILL screwing around with this. BUILD THE DAMN THING, AND GO ON TO SOMETHING ELSE!!!!

It is beginning to look like this is a lifetime project for Cathy Becthel, let's let her accomplish this and many more projects befor she retires. She may only have another 20-25 years. Spending hundred of millions of dollars on study is a massive waste of taxpayer dollars. Lets GIT-R-DONE!!!!

Comments:

The Parkway will bring more vehicles west and east and impact north south traffic corridors. I am especially concerned about Soboba Road and Gilman Springs Road. Both are not configured to handle the amount of traffic now. Please include some solution for the increased traffic now from the Parkway on these corridors.

P-21-1
