Comments:  
This project should not be complete. We must change our course away from personal transportation. The entire sum allocated for this project should be redirected to public transport.

Comments:  
I would like to see bicycle lanes incorporated into the Parkway design as separate Type 1 lanes. The next suggestion if that is not available would be Type 2 lanes. My company DCS Enterprises is a San Jacinto based General Contracting company that also would be interested and bidding on portions of this Mid County Parkway Project.  
Thank You  
David Smith
